When specifically agreed to in writing and signed by a Williamson County Commissioner, or the County Road Administrator, Williamson County will permit the cutting of a roadbed in lieu of core drilling, provided the contractor or contractors agree to the following installation:

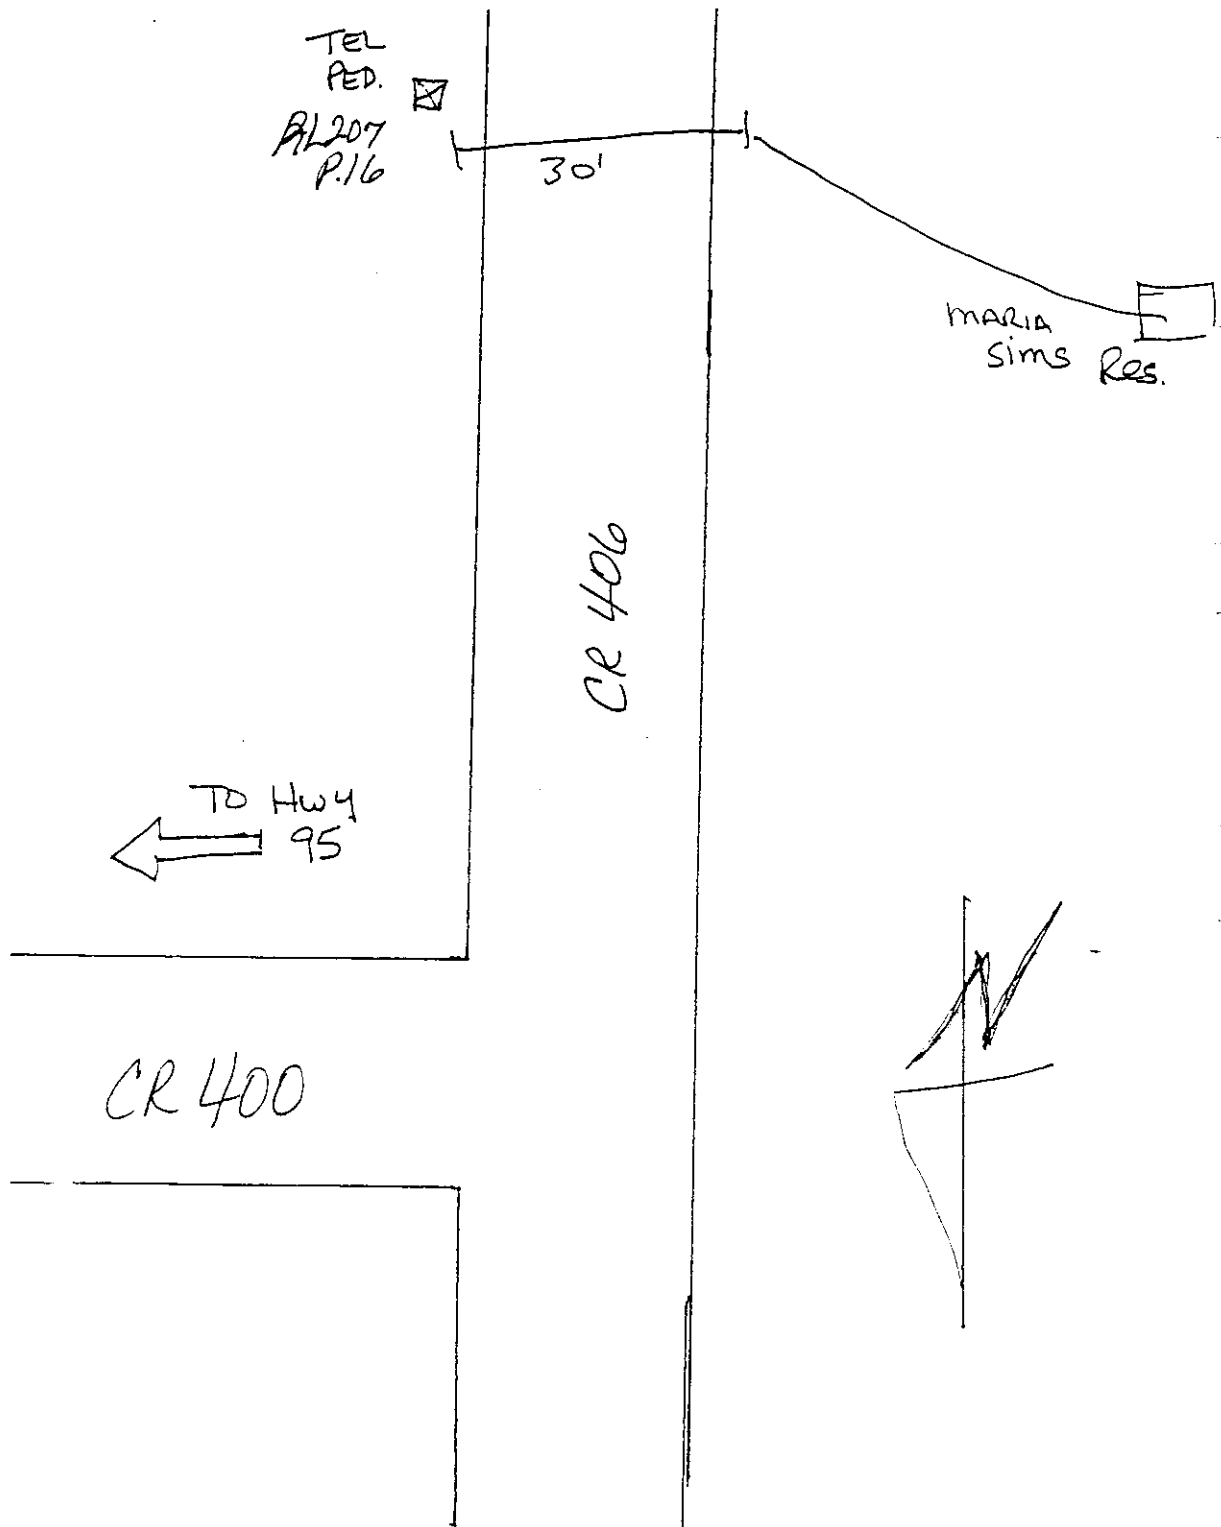

SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING

1. Compacted base material with concrete cap.
2. Layer compacted and topped with 3" hot mix asphalt.
3. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and Williamson County, prior to the commencing of a cutting of the roadbed.
4. A road cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING  
WITHIN AUSTIN ETJ

1. Roadbed cuts to be repaired in accordance with City of Austin specifications as outlined in their standard Specifications for Cuts in Public Right of Way Manual.
2. The installation to be free from defects for a period of one (1) year from completion date. Any maintenance required during this period, caused by the cutting of a road, will be done by the contractor or contractors without cost to the County.
3. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and County, prior to the commencing of a cutting of the roadbed.
4. A roadbed cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

This agreement must be entered into prior to the commencing of the cutting of a roadbed.

Williamson County  
Unified Road System

When specifically agreed to in writing and signed by a Williamson County Commissioner, or the County Road Administrator, Williamson County will permit the cutting of a roadbed in lieu of core drilling, provided the contractor or contractors agree to the following installation:

SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING

1. Compacted base material with concrete cap.
2. The utility shall be placed a minimum of 24" below the natural flow line.
3. Layer compacted and topped with 3" hot mix asphalt.
4. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and Williamson County, prior to the commencing of a cutting of the roadbed.
5. A road cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING

WITHIN AUSTIN ETJ

1. Roadbed cuts to be repaired in accordance with City of Austin specifications as outlined in their standard Specifications for Cuts in Public Right of Way Manual.
2. The utility shall be placed a minimum of 24" below the natural flow line.
3. The installation to be free from defects for a period of one (1) year from completion date. Any maintenance required during this period, caused by the cutting of a road, will be done by the contractor or contractors without cost to the County.
4. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and County, prior to the commencing of a cutting of the roadbed.
5. A roadbed cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

This agreement must be entered into prior to the commencing of the cutting of a roadbed.

1. Hot mix asphalt 1 1/2" min. thickness. Roll in place to match existing surface.  $\pm 1/8"$  tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8 inches, whichever is greater (specifications: TSHD Item 248, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Where roadside ditches (bar ditches) are crossed by the utility pipe, minimum depth to the top of the pipe from centerline road elevation will be 36".

County of Williamson

COUNTY NOTIFICATION OF TELEPHONE CONSTRUCTION

GTE Texas is hereby notifying the Commissioners Court of Williamson County, Texas that construction of aerial and/or installation of buried telephone plant facility upon, in or along the public county road right-of-way of Co. RD. 482 in Williamson County, Texas, construction will begin on or around 11-17-96 subject to the following requirements and/or limitations.

1. That all buried telephone cable shall be laid between the edge of the road shoulder and to within 4 feet of the county road right-of-way and shall be buried not less than 30 inches (thirty) deep in accordance with Texas State Highway specification, and/or the National Electrical Safety Code. No buried facilities will be placed within the actual road-bed (driving surface) unless approved by Commissioners Court.

2. That all aerial telephone plant facility shall be in accordance with the provision of the National Electrical Safety Code and pole placement of R-O-W shall not be less than one foot from the county road right-of-way boundary line.

3. All underground buried cable crossing of all paved hard-surfaced roads or streets will be accomplished by boring beneath the surface of the road and placed in a steel or plastic conduit to a depth of at least 36 inches (thirty-six) in depth. Buried cable facility crossing a graveled or dirt road will be plowed across to a minimum depth of 36 inches. All county road-beds will be restored to the original condition or better upon the completion of the construction at that location.

4. All debris dirt, gravel, brush trimmings and construction materials which may have been used in the course of a construction project by GTE's forces or resulting from GTE's installation of telephone cable and/or conduit shall be removed by the telephone company at its own expense from any said county road right-of-way, street after its cable and/or conduit has been laid in place. The debris removal will be accomplished within seven working days in order to provide safe passage.

5. GTE shall repair at its own expense, all fences, driveways, culverts, drainways, and other structures or improvements to their original state, which it has damaged or moved in the course of laying buried telephone cables and/or conduits.

6. Prior to the actual construction start date, the contractors must notify the County Commissioner 48 hours in advance to inform them that work is being done along the said road.

7. The said County of \_\_\_\_\_ does not grant GTE Texas any right, claim, title or easement in or upon any road, street or right-of-way hereof.
