UTILITY INSTALLATION REQUEST

DATE: August 18, 1997

TO: Williamson County Commissioners' Court
c/o County Engineer, County Road Administrator or County Commissioner

Formal notice is hereby given that City of Austin W+WW proposes to place
an 8-inch sewer line within the right-of-way of McNeil
and Pecan St. County Road as follows:
99.5 linear feet of 8-inch sewer line from the intersection of
McNeil and Pecan St, and the length of Pecan St.

The location and description of the proposed line and appurtenances is more
fully shown on the drawing attached hereto. The line will be constructed &
maintained on the County right-of-way in accordance with current Williamson
County Specifications as directed by the County Engineer, County Road
Administrator or County Commissioner.

Construction will begin on or after the 13th day of August 1997, and
is estimated to be completed in 45 calendar days.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby
to grant any right, claim, title or easement in or upon this County Road; and it is further
understood that in the future, should Williamson County, for any reason, need to work,
improve, relocate, widen, increase, add to, decrease, or in any manner change the structure
of this road or right-of-way, this line, if affected, will be moved at the direction of the
Williamson County Engineer or County Commissioner. This installation work shall not damage
any part of the roadway and adequate provisions shall be made to cause a minimum of
inconvenience to traffic and adjacent property owners.

**Williamson County
Unified Road System**

When specifically agreed to in writing and signed by a Williamson County Commissioner, or the County Road Administrator, Williamson County will permit the cutting of a roadbed in lieu of core drilling, provided the contractor or contractors agree to the following installation:

SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING

1. Compacted base material with concrete cap.
2. The utility shall be placed a minimum of 30" below the flow line.
3. Layer compacted and topped with 3" hot mix asphalt.
4. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and Williamson County, prior to the commencing of a cutting of the roadbed.
5. A road cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

**SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING
WITHIN AUSTIN ETJ**

1. Roadbed cuts to be repaired in accordance with City of Austin specifications as outlined in their standard Specifications for Cuts in Public Right of Way Manual.
2. The utility shall be placed a minimum of 30" below the flow line.
3. The installation to be free from defects for a period of one (1) year from completion date. Any maintenance required during this period, caused by the cutting of a road, will be done by the contractor or contractors without cost to the County.
4. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and County, prior to the commencing of a cutting of the roadbed.
5. A roadbed cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

This agreement must be entered into prior to the commencing of the cutting of a roadbed.

1. Hot mix asphalt 1 1/2" min. thickness. Roll in place to match existing surface. $\pm 1/8"$ tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8 inches, whichever is greater (specifications: TSHD Item 248, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Where roadside ditches (bar ditches) are crossed by the utility pipe, minimum depth to the top of the pipe from centerline road elevation will be 36".

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

Williamson County
Unified Road System

When specifically agreed to in writing and signed by a Williamson County Commissioner, or the County Road Administrator, Williamson County will permit the cutting of a roadbed in lieu of core drilling, provided the contractor or contractors agree to the following installation:

SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING

1. Compacted base material with concrete cap.
2. The utility shall be placed a minimum of 30" below the flow line.
3. Layer compacted and topped with 3" hot mix asphalt.
4. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and Williamson County, prior to the commencing of a cutting of the roadbed.
5. A road cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

SPECIFICATION FOR CUTTING ROADBED IN LIEU OF CORE DRILLING
WITHIN AUSTIN ETJ

1. Roadbed cuts to be repaired in accordance with City of Austin specifications as outlined in their standard Specifications for Cuts in Public Right of Way Manual.
2. The utility shall be placed a minimum of 30" below the flow line.
3. The installation to be free from defects for a period of one (1) year from completion date. Any maintenance required during this period, caused by the cutting of a road, will be done by the contractor or contractors without cost to the County.
4. A performance bond, or other securities agreed upon by the County, must be pledged in the amount of the estimated cost of the road repairs, as agreed to by the contractor and County, prior to the commencing of a cutting of the roadbed.
5. A roadbed cut permit fee, in the amount of \$120.00 per roadbed cut, must be submitted to the County Road Administrator's office prior to cutting the roadbed.

This agreement must be entered into prior to the commencing of the cutting of a roadbed.

1. Hot mix asphalt 1 1/2" min. thickness. Roll in place to match existing surface. $\pm 1/8"$ tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8 inches, whichever is greater (specifications: TSHD Item 248, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Where roadside ditches (bar ditches) are crossed by the utility pipe, minimum depth to the top of the pipe from centerline road elevation will be 36".

AGENDA ITEM # 5

August 26, 1997

*

Consider noting reports from TxDOT on over axle/over weight tolerance permits.

Moved: Judge Doerfler

Seconded: Commissioner Boatright

Motion: To note reports from TxDOT on over axle/over weight tolerance permits.

Vote: Motion carried 4 - 0 with Commissioner Heiligenstein absent from the dais

August 14, 1997

Attn: County Clerks,

In accordance with HB 1547, 74th Legislature, enclosed is the notification to counties concerning the issuance of Over Axle / Over Gross Weight Tolerance Permits. HB 1547, 74th Legislature directs the Texas Department of Transportation to notify each county listed in the permit application for a permit issued under authority of TVCS 6701d-11 Sec. 5B, and the Texas Transportation Code, Chapter 623 that the person intends to operate or cause to be operated an overweight vehicle in the county.

If this report is going to the incorrect address please notify the Motor Carrier Division of any mailing address changes.

If you have any questions concerning this information, please contact Curtis Wagner at 512-465-3500.
