

AGENDA ITEM # 7

February 3, 1998

\*

Discuss and take appropriate action to secure an approved sewer system for Jarrell.

Commissioner Hays advised he and Commissioner Mehevec had met with "Bud" and Jeff Stockton last week and discussed the dire need of a septic system being built in the Jarrell area.

He discussed the possibility of an urban development grant.

Charles "Bud" Stockton advised the court of the need for such a project for the City of Jarrell.

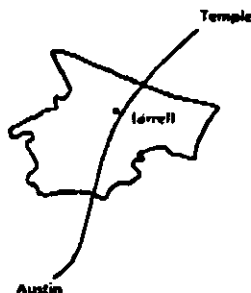

Moved: Commissioner Hays

Seconded: Commissioner Heiligenstein

Motion: To authorize Colbert and Associates to pursue grant options for an approved sewer system for Jarrell.

Vote: Motion carried 4 - 0 with Commissioner Boatright absent from the dais.

Fax: 512 / 746-2518

Mr. David Hayes, Commissioner  
Precinct Three Williamson County  
Georgetown, TX. 78627

Dear Commissioner Hayes:

As superintendent of the Jarrell Independent School System I would like to request that the Commissioner's Court of Williamson County consider taking steps to help our unincorporated town secure an approved sewer system. This would not only be a tremendous help to our schools, but would benefit everyone in our area. With the growth of our whole county, continued reliance on individual septic systems in our area is unacceptable.

I will be glad to help in any way I can to get this worthwhile project looked into. I know that there are others in our area interested in this also. Please help us get this on the Commissioner's Court agenda so that we may further discuss the possibilities. Please call or come by if I can help further this endeavor.

Sincerely,

  
Larry V. Hausenfluke  
Superintendent of Schools
