SUBJECT : FILMING OF MOVIE ON COUNTY ROAD 192.

After reviewing the request of 24/36 Productions to film the movie "Natural Selection" on County Road 192 on or about August 1, 1998, I have no objections to this as long as they (the production people of the film crew) notify the Weir Volunteer Fire Department BEFORE any fires are ignited. I would like two (2) Weir Fire Units on stand-by at the scene when any exposed fires are in progress.

NATURAL SELECTION (MOTION PICTURE)
24/36 Productions
Saturday, August 1, 1998 (requested day)

We would like to shoot a scene for our film on County Road 192, off of Highway 29. The scene will involve two cars, three actors, several large trucks and cars for crew and equipment, mock gunfire, a staged fight, and the explosion of a car (if possible). The explosion would mainly be confined to the underside of the car. Filming will take one whole day and will be fairly elaborate. We will need exclusive access to the road for the day.

We have already spoken to, and obtained a verbal consent from Larry Kotrla (863-4965), the owner of the affected property, and have secured parking for many of our vehicles with Tim David (863-3707), who lives almost directly across from C.R. 192.

At this time, we are requesting the presence of any and all appropriate law enforcement personnel, as well as the advisement and services of the concerned fire department. In a matter of days we will know specifically the time of day when the explosion would need to take place. If unnecessary, it is not our desire to occupy law enforcement or fire personnel for the entire day of shooting.

In the event that your office has already received information pertaining to our request, please note that the proposed day of filming has been pushed back one day, to August 1.

Because our request is of a timely nature, the earliest possible response would be greatly appreciated.
