WILLIAMSON COUNTY, TEXAS

YEAR 2000 PERFORMANCE WARRANTY

For purposes of this warranty, the following definitions shall apply:

1. "Accurately" shall be defined to include:

- a) calculations correctly performed using four digit year processing;
- b) functionality on-line, batch, including but not limited to, entry, inquiry, maintenance and updates support four digit year processing;
- c) interfaces and reports must support four digit year processing;
- d) successful translation into year 2000 with valid date (e.g. CC/YY/MM/DD) without human intervention. Additional representations for week, hour, minute and second, if required, complies with the international standard ISO 8601:1988, "Data elements and interchange formats - Information exchange Representation of dates and time." When ordinal dates are used, the ISO standard format CCYYDDD is used;
- e) processing with four digit year after transition to any date beyond the year 2000 without human intervention;
- f) correct results in forward and backward date calculations spanning century boundaries;
- g) correct leap year calculations; and
- h) correct forward and backward date calculations spanning century boundaries, including conversion of previous years stored, recorded or entered as two digits.

2. "Date integrity" shall mean all manipulations of time-related data (dates, durations, days of week, etc.) will produce desired results for all valid date values within the application domain.

3. "Explicit century" shall mean date elements in interfaces and data storage permit specifying century to eliminate date ambiguity.

4. "Extraordinary actions" shall be defined to mean any action outside the normal documented processing steps identified in the product's reference documentation.

5. "General integrity" shall mean no value for current date will cause interruptions in desired operation - especially from the 20th to 21st centuries.

6. "Implicit century" shall mean for any data element without century, the correct century
