NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
3151 S. E. Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 5-1-00

Formal notice is hereby given that Durham Park Water Supply Corp.

Company proposes to place a 1 1/4" water line

Line within the right-of-way of 100 Shin Oak Ln. & 100 Shin Oak Ln
as follows: (give location, length, general design, etc.)

101 Shin Oak Lane across to 100 Shin Oak Ln. 4" bored hole under road. Approx. 50' long 1 1/4" water line for a double service

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by ___ copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the Wed day of 3 2000.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

CONTRACTOR'S LIABILITY AGREEMENT

76

I, Lody Carothers, Contractor for Durham Park,
in Williamson County, Texas do hereby agree to the following schedules and conditions for doing work within
the right-of-way of Shin Oak which is a public roadway
maintained by Williamson County.

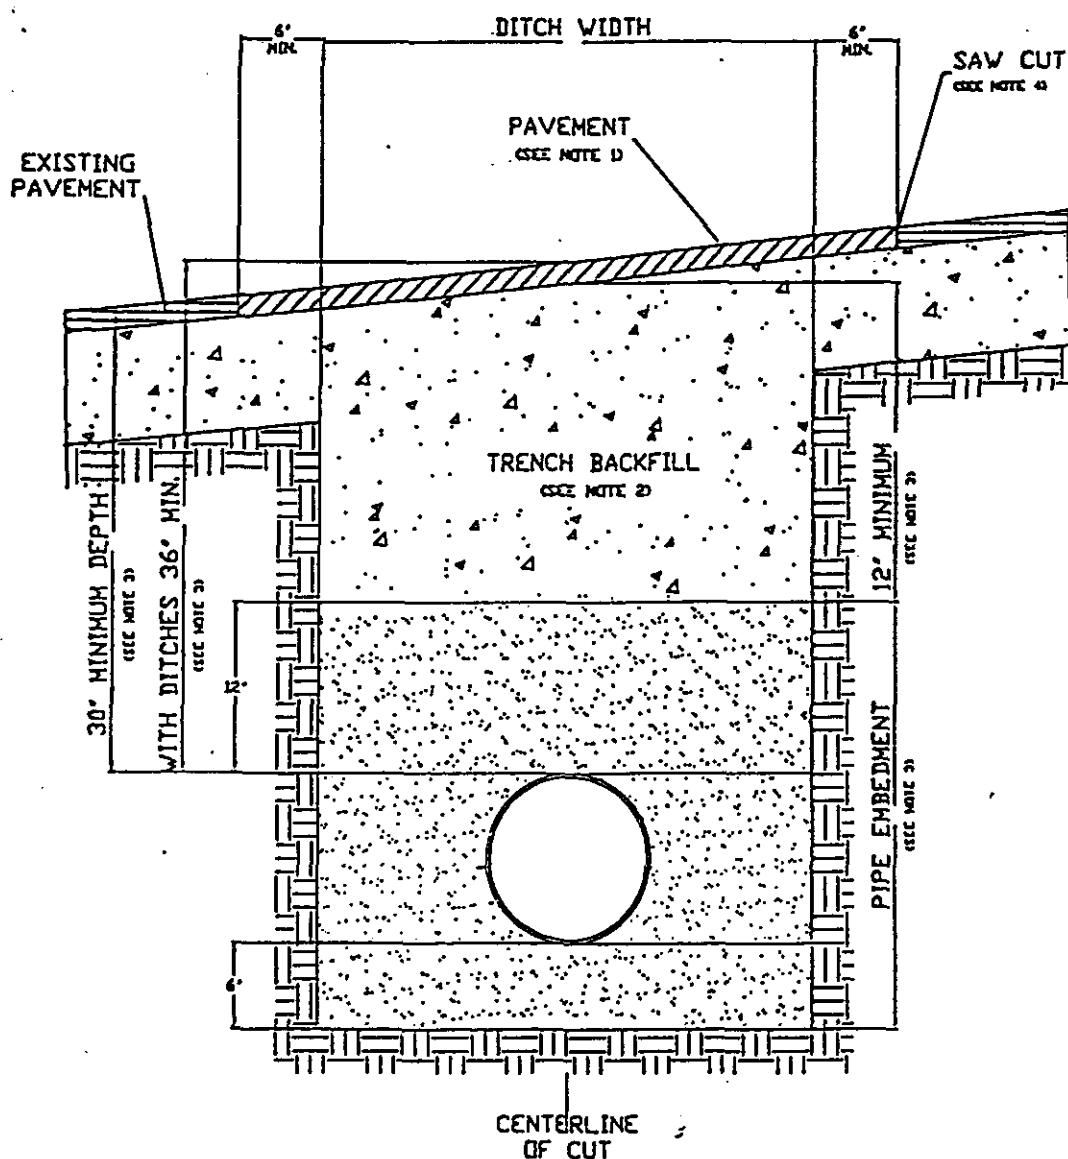

1. I will contact the Williamson County Unified Road System at least 48 hours prior to start of construction.
2. All work in the right-of-way will be done between the hours of 8:30 a.m. and 4:30 p.m. on Monday through Friday only.
3. Cuts will be opened for one-half the roadway only, with flagmen on both sides of the work area, allowing one-way traffic through. This type of operation will be held to a minimum and all advance warning signs and barricades shall be as specified in the Texas Manual on Uniform Traffic Control Devices. These cuts will also be filled and entire roadway opened at night and on weekends.
4. Roadside work in ditches alongside the trenched surface may be left opened at night, only if they can be barricaded solidly between open ditch and traveled roadway leaving a minimum 6' of road shoulder between the pavement edge and the barricades. The barricades must be reflectorized and lighted with warning lights and conform to the requirements of the T.M.U.T.C.D. for nighttime use.
5. Any construction area to be maintained from dusk to dawn shall have Type B High Intensity Steady Burn Warning Lights to delineate the traveled way through and around obstructions in a construction or maintenance area. All warning lights shall be installed to a minimum mounting height of 36" to the bottom of the lense.
6. Construction work and road repair on County right-of-way will be done to Williamson County Standards and to the approval of the Williamson County Unified Road System.
7. I will notify the Williamson County Unified Road System and obtain approval prior to any changes from this agreement if required due to soil conditions or other problems.

PERPENDICULAR UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

1. Hot mix asphalt 1 1/2" min. thickness. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8 inches, whichever is greater (specifications; TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Where roadside ditches (bar ditches) are crossed by the utility pipe, minimum depth to the top of the pipe from centerline road elevation will be 36".
6. All pavement repair shall conform to Item 351 Repairing Existing Flexible Pavement Structure as found

PARALLEL UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

Hot mix asphalt to match existing HMAC thickness or 2" minimum, whichever is greater. Roll in place to match existing surface, + or - 1/8" tolerance.

Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8", whichever is greater (Specifications: TxDOT Item 247, Type A, Grade 2).

Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.

Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.

Damage beyond the centerline requires repair over entire roadway width.

All pavement repair shall conform to Item 351 Repairing Existing Flexible Pavement Structure as found in the 1993 Texas Department of Transportation Standard Specifications for Construction of Highways.

1. Contractor to call "ONE CALL" 48 hours in advance for underground utility locations. Locations and depths of ALL structures must be verified PRIOR to any excavations.
2. Contractor to comply with O.S.M.A. No. 1796-432 for shoring shoring system 3'-4' to depth.
3. Contractor to maintain a clean and safe work site at all times. All excavations material to be hauled away as soon as possible.
4. Contractor to remove all streets and right-of-ways to as good or better than original condition. Trench lines should be compensated in 18" or less at least 95% density.
5. Contractor to provide "as built" prints upon completion and prior to final billing.
6. Cuts shown in profile are referenced from a survey line (N.W. or S.W.) and may not be as deep or may be deeper over the center. Contractor to select grade required to complete job. A minimum 20' cover is to be maintained at all times. CUTS SHOWN ARE FOR ESTIMATING PURPOSES ONLY!!!!
7. Any adjustments to conduit alignment or depth will be adjusted by Contractor but after SMTS inspectors approval.
8. All permits to be kept on job site.
9. Place steel straps in all bar ducts. Strap to same strength rating of conductors or greater.
10. Play all ducts to standards and ducts that vary more.
11. Contractor to install Traffic Control Devices in conformance with Part VI of the Texas Manual on Uniform Traffic Control Devices during construction to provide complete safety to the general public.
12. Contractor to provide barricades.
13. No trench to be left open at night.
14. Type "C" Backfill: mixture of two sizes cement per one cubic yard of sand.
15. Type "A" Backfill: original backfill from trench; rocks not to exceed 12" in diameter.
16. Temporary erosion and sedimentation controls must be placed in place to protect nearby streams and private property. Key banks, filter ditches and/or other streams to be bermed and installed by Contractor. Temporary controls must conform to the ANSI.

Consent Agenda

The Consent Agenda includes non-controversial and routine items that the Court may act on with one single vote. The Judge or a Commissioner may pull any item from the Consent Agenda in order that the court discuss and act upon it individually as part of the Regular Agenda.
