SEAL COATING ANNUAL CONTRACT**BID NUMBER: 01WCA0017****BID OPENING DATE & TIME: AUGUST 9, 2000 – 3:00 PM****CONTRACT PERIOD: OCTOBER 1, 2000 THRU SEPTEMBER 30, 2001**

The bid will be for a single course seal coat on various County roads. Williamson County will prepare the roads for seal coating by blading the shoulders and patching where necessary. The contractor will be responsible for seeing that the roads are swept clean and free of debris prior to applying seal coat.

The bid will be for an estimated twenty (20) to thirty (30) miles.

All quantities shown are estimated quantities. The actual quantity may be more or less. The county is not obligated to any minimum amount and the county may require any reasonable amount greater than the estimate for the same unit price.

MATERIALS:

Asphalt The contractor shall use an AC-5 or AC-10, or A/T Asphalt approved by the County. The rate of application shall be .40 to .45 Gallons per Square Yard as directed by the County.

Aggregate The aggregate shall be Grade 4 and TxDOT 1992 Spec. of a source and type approved by the County. The rate of application shall be 1:120.

GENERAL:

The Contractor shall furnish all materials, equipment required, proper signage and traffic control to complete the project in a timely and efficient manner.

Material application procedures, temperature requirements and weather conditions for application shall conform to TxDOT Standard Specifications for Construction of Highways, Streets, and Bridges (Blue Book).

Bid to be submitted based on price per Square Yard.

Payment will be made on completion of all or portions of the project accepted by the County based on ongoing inspections.

Distributor Tank: The tank shall have been calibrated within three (3) years from the date it is first used on this project. The tank calibration procedure shall be in accordance with Test Method (TxDOT) Tex-922-K, Part I, and shall be signed and sealed by a registered professional engineer. Unless otherwise shown on the plans, the Contractor shall provide the tank calibration and shall furnish the County Engineer an accurate and satisfactory calibration record prior to beginning the work. The County Engineer may at any time verify calibration accuracy in accordance with TxDOT Test Method Tex-922-K, Part II, and may perform the required recalibration if the calibration is found to be in error.

When a uniform application of asphaltic material is not being achieved, the County Engineer may

require that the spray bars on the distributor be controlled by an operator riding in such a position at the rear of the distributor that the operation of all sprays is in full view.

Aggregate Spreader: A self-propelled continuous-feed aggregate spreader shall be used which will uniformly spread aggregate at the rate specified by the County Engineer.

Rollers: Rolling equipment shall meet the governing specifications for Item 210, "Rolling (Flat Wheel)" and Item 213, "Rolling (Pneumatic Tire)."

Broom: The broom shall be a rotary, self-propelled power broom for cleaning existing surfaces.

BID PRICE PER SQUARE YARD: (67¢/sq yd) sixty-seven cents per square yard
