****Special Note****

For the purposes of pricing this quotation, I have entered my prices in the "unit" column based on price per each piece. I could not find in your specifications if "unit" meant each piece or if it was to correspond to the unit listed in the "how supplied" column. I tried contacting Jeff Hayes with this question on 8/8/00 but was told he would be out of the office for the rest of the week. In order to complete the bid in time, I decided to use this method of pricing and I hope it satisfies your needs.

Thank you,
Michelle Collins
