

AGENDA ITEM 4

Consider noting in minutes any off right-of-way work on any County road done by Road & Bridge Unified System.

Moved: **Judge Doerfler**

Seconded: **Commissioner Limmer**

Motion: To note off right-of-way on County Road 234 for permission to haul spoils from Live Oak Subdivision to the property of **R. V. Barker**

Off right-of-way on County Road 148 for drainage work on properties of **Mrs. Martin Anderegg and Harry Hobratsch** for replacement of two (2) old wooden bridges with culverts;

Off right-of-way on County Road 217 hauling spoils from drainage work to property of **James Hall** on County Road 224 (126 Spring Creek) and utility proposals from:

Bell-Milam Falls Water Supply Corporation for bore on County Road 386;

Central Telephone Company of Texas for bore in right-of-way of County Road 224;

Commercial Consolidated, Inc. for a left turn lane on O'Conner Road in Cat Hollow Subdivision;

Southwestern Bell Telephone for bore in right-of-way of County Roads 404 & 405 and right-of-way of County Roads 400 and 406;

Time Warner Cable of Austin for use of right-of way County Road 172 and road cut on County Road 132;

TXU Electric & Gas for bore on County Road 386 and;

Verizon Southwest for bore in right-of-way of County Road 105.

Vote: Motion carried 4 – 0 with Commissioner Boatright absent from the dais.

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 9-27-00Formal notice is hereby given that Bell-Milam-Falls Water Supply CorporationCompany proposes to place a water lineline within the right-of-way of CR 386

as follows: (give location, length, general design, etc.)

Bore and encase an 1 1/4" line in a 2" PVC encasement.

Location: From intersection of Hwy. 95 and FM 971 East approx. 1 1/2 mile to
CR 386, go North approximately .3 mile on CR 386.

Customer: August J. Vitek

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 4th day of October xx 2000APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

D & L Service Co., Inc., Contractor for Bell-Milam-Falls Water Supply Corp.
in Williamson County, Texas do hereby agree to the following schedules and conditions for doing work
within the right-of-way of CR 386 which is a public
roadway maintained by Williamson County.

1. I will contact the Williamson County Unified Road System at least 48 hours prior to start of construction.
2. All work in the right-of-way will be done between the hours of 8:30 a.m. and 4:30 p.m. on Monday through Friday only.
3. Cuts will be opened for one-half the roadway only, with flagmen on both sides of the work area, allowing one-way traffic through. This type of operation will be held to a minimum and all advance warning signs and barricades shall be as specified in the Texas Manual on Uniform Traffic Control Devices. These cuts will also be filled and entire roadway opened at night and on weekends.
4. Roadside work in ditches alongside the trenched surface may be left opened at night, only if they can be barricaded solidly between open ditch and traveled roadway leaving a minimum 6' of road shoulder between the pavement edge and the barricades. The barricades must be reflectorized and lighted with warning lights and conform to the requirements of the T.M.U.T.C.D. for nighttime use.
5. Any construction area to be maintained from dusk to dawn shall have Type B High Intensity Steady Burn Warning Lights to delineate the traveled way through and around obstructions in a construction or maintenance area. All warning lights shall be installed to a minimum mounting height of 36" to the bottom of the lense.
6. Construction work and road repair on County right-of-way will be done to Williamson County Standards and to the approval of the Williamson County Unified Road System.
7. I will notify the Williamson County Unified Road System and obtain approval prior to any changes from this agreement if required due to soil conditions or other problems.

NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: January 16, 1998

Formal notice is hereby given that Central Telephone Company of Texas

Company proposes to place a buried telephone cable

line within the right-of-way of CR 224

as follows: (give location, length, general design, etc.)

Beginning at the intersection of CR 224 and FM 138 continuing by boring at a depth of 24 inches for 45 feet from the East R.O.W. to the West R.O.W. then continuing in the West R.O.W. at a depth of 24 inches and at a distance of 3 feet from the rear of the R.O.W. for 3,382 feet.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 3 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 9th day of October 2000 .

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 09-08-00

Formal notice is hereby given that Southwestern Bell Telephone

Company proposes to place a copper telecommunications cable and PVC pipe

line within the right-of-way of CR 404, CR 405

as follows: (give location, length, general design, etc.)

At the intersection of CR 404 and CR 406 propose to place copper cable and PVC-C-2" pipe in joint trench along CR 404 on west side of CR 405.

Propose to cross CR 404 and place cable and PVC pipe along CR 405 on west side approximately 8200' to CR 497.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 1st day of September 2000

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

**NOTICE OF PROPOSED INSTALLATION
UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY**

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 9/27/00

Formal notice is hereby given that Time WARNER CABLE

Company proposes to place a Coax Cable

line within the right-of-way of CR 132
as follows: (give location, length, general design, etc.)

TWC will place a proposed catu COAX cable in the right of way of CR 132 THE total Length will be 332' we'll will Have to cut CR 132 for a total of 77 feet ±

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 3 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 29 day of September 2000

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

CONTRACTOR'S LIABILITY AGREEMENT

I, Gideon Casillas, Contractor for Time WAIVER CASE
 in Williamson County, Texas do hereby agree to the following schedules and conditions for doing work
 within the right-of-way of CR 732 which is a public
 roadway maintained by Williamson County.

1. I will contact the Williamson County Unified Road System at least 48 hours prior to start of construction.
2. All work in the right-of-way will be done between the hours of 8:30 a.m. and 4:30 p.m. on Monday through Friday only.
3. Cuts will be opened for one-half the roadway only, with flagmen on both sides of the work area, allowing one-way traffic through. This type of operation will be held to a minimum and all advance warning signs and barricades shall be as specified in the Texas Manual on Uniform Traffic Control Devices. These cuts will also be filled and entire roadway opened at night and on weekends.
4. Roadside work in ditches alongside the trenched surface may be left opened at night, only if they can be barricaded solidly between open ditch and traveled roadway leaving a minimum 6' of road shoulder between the pavement edge and the barricades. The barricades must be reflectorized and lighted with warning lights and conform to the requirements of the T.M.U.T.C.D. for nighttime use.
5. Any construction area to be maintained from dusk to dawn shall have Type B High Intensity Steady Burn Warning Lights to delineate the traveled way through and around obstructions in a construction or maintenance area. All warning lights shall be installed to a minimum mounting height of 36" to the bottom of the lense.
6. Construction work and road repair on County right-of-way will be done to Williamson County Standards and to the approval of the Williamson County Unified Road System.
7. I will notify the Williamson County Unified Road System and obtain approval prior to any changes from this agreement if required due to soil conditions or other problems.

REQUIREMENTS FOR WILLIAMSON COUNTY UTILITIES INSTALLATION PERMIT

1. Complete "Notice of Proposed Installation Utility Line on Williamson County Right-of-Way", including describing the location and showing the sketch and details on the application.
2. Submit two (2) sets of the application with plans locating bore or cut along with detailed specifications including repair/restoration.
3. All work shall be in compliance with Williamson County Specifications.
4. A performance bond in the amount of \$500 minimum, executed by a surety company or surety companies authorized to execute surety bonds under and in accordance with the laws of the State of Texas. Exact amount of the bond to be determined by Williamson County depending on the extent of the project.
5. Traffic handling plans, in compliance with the Texas Manual on Uniform Traffic Control Devices, shall be submitted with application.
6. Contractor shall file a "Contractor's Liability Agreement" prior to issuance of permit (attached).
7. Franchised utilities (City of Austin, Southern Union Gas, Southwestern Bell, etc.) are not required to provide a bond or pay a permit fee if they do the work with their own work forces. Contractors will pay a fee of \$120.00.
8. Contractor shall notify the Williamson County Unified Road System at least 48 hours prior to start of construction at (512) 930-3330.
9. If there are any questions, contact the Williamson County Unified Road System at (512) 930-3330.

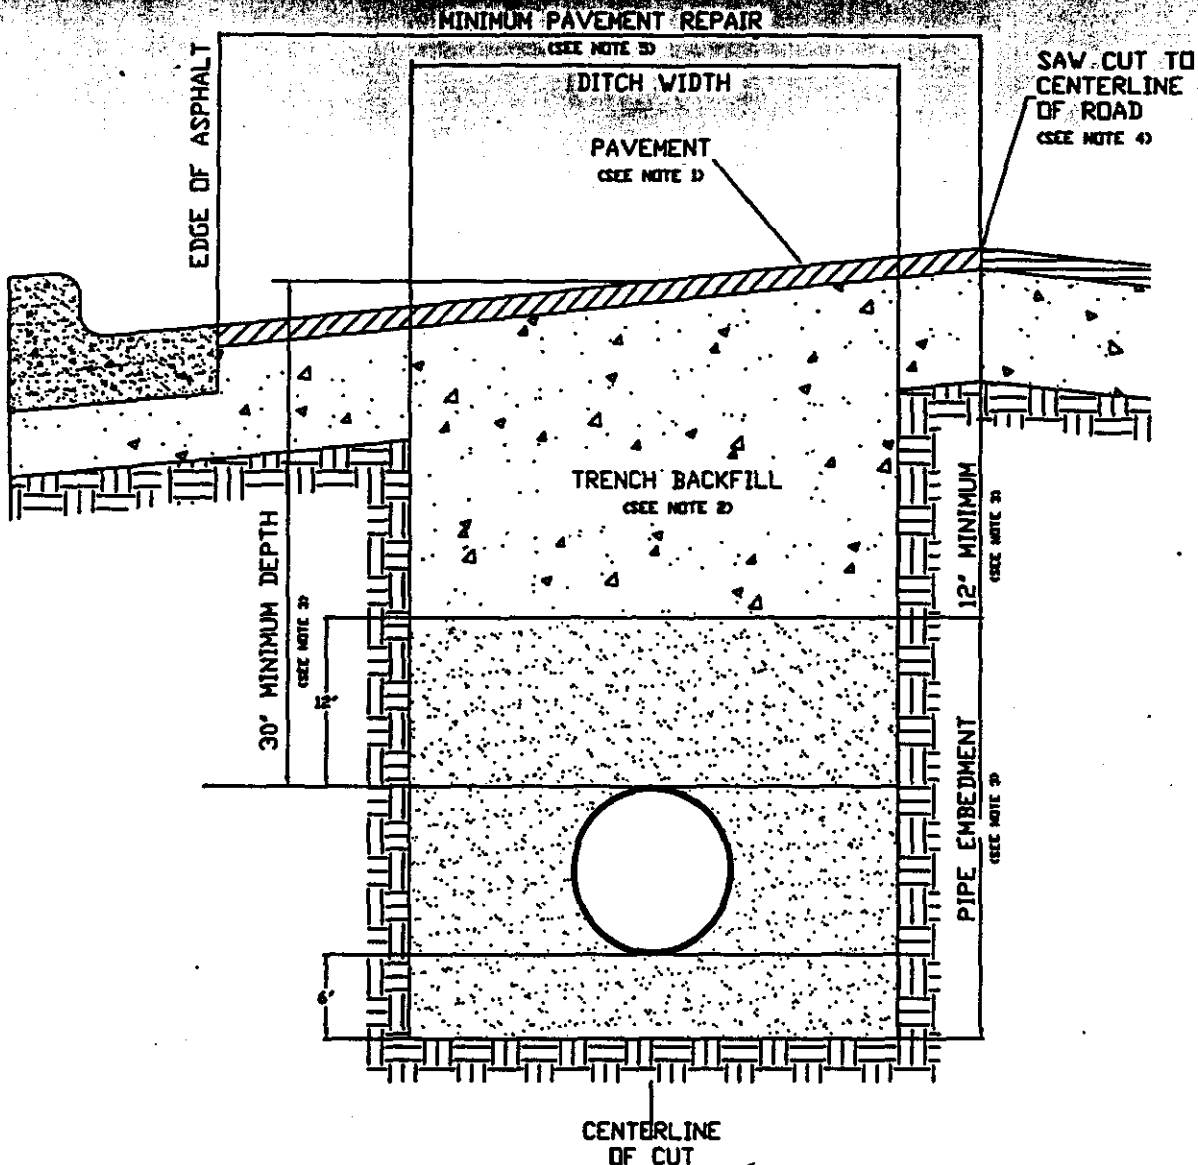

WILLIAMSON COUNTY UNIFIED ROAD SYSTEM

1900 Georgetown Inner Loop, Suite B

Georgetown, Texas 78626

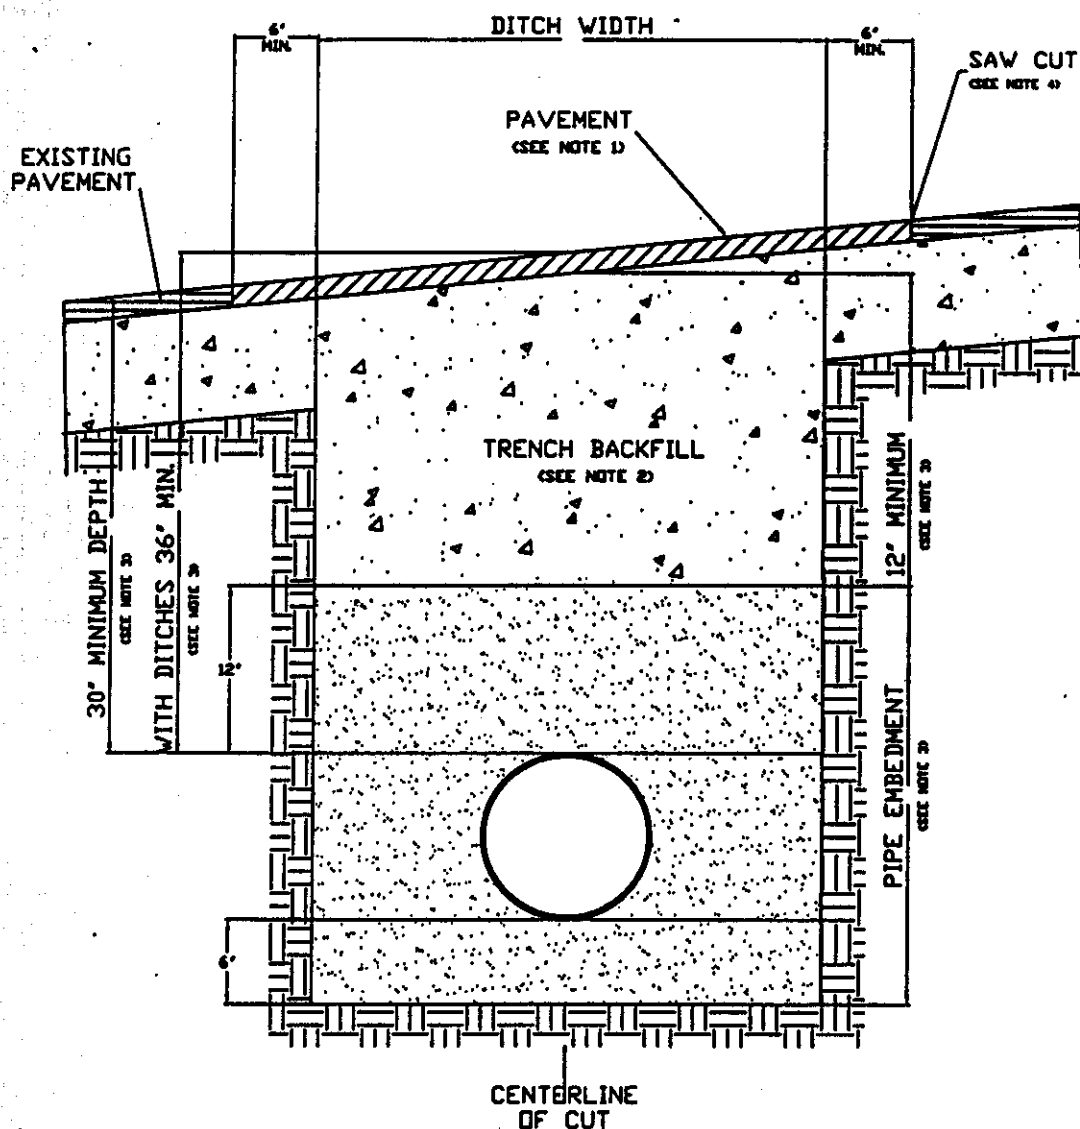

(512) 930-3330

PARALLEL UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

1. Hot mix asphalt to match existing HMAC thickness or 2" minimum, whichever is greater. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8", whichever is greater (Specifications: TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Damage beyond the centerline requires repair over entire roadway width.
6. All pavement repair shall conform to Item 351 Repairing Existing Flexible Pavement Structure as found in the 1993 Texas Department of Transportation Standard Specifications for Construction of Highways, Streets and Bridges.

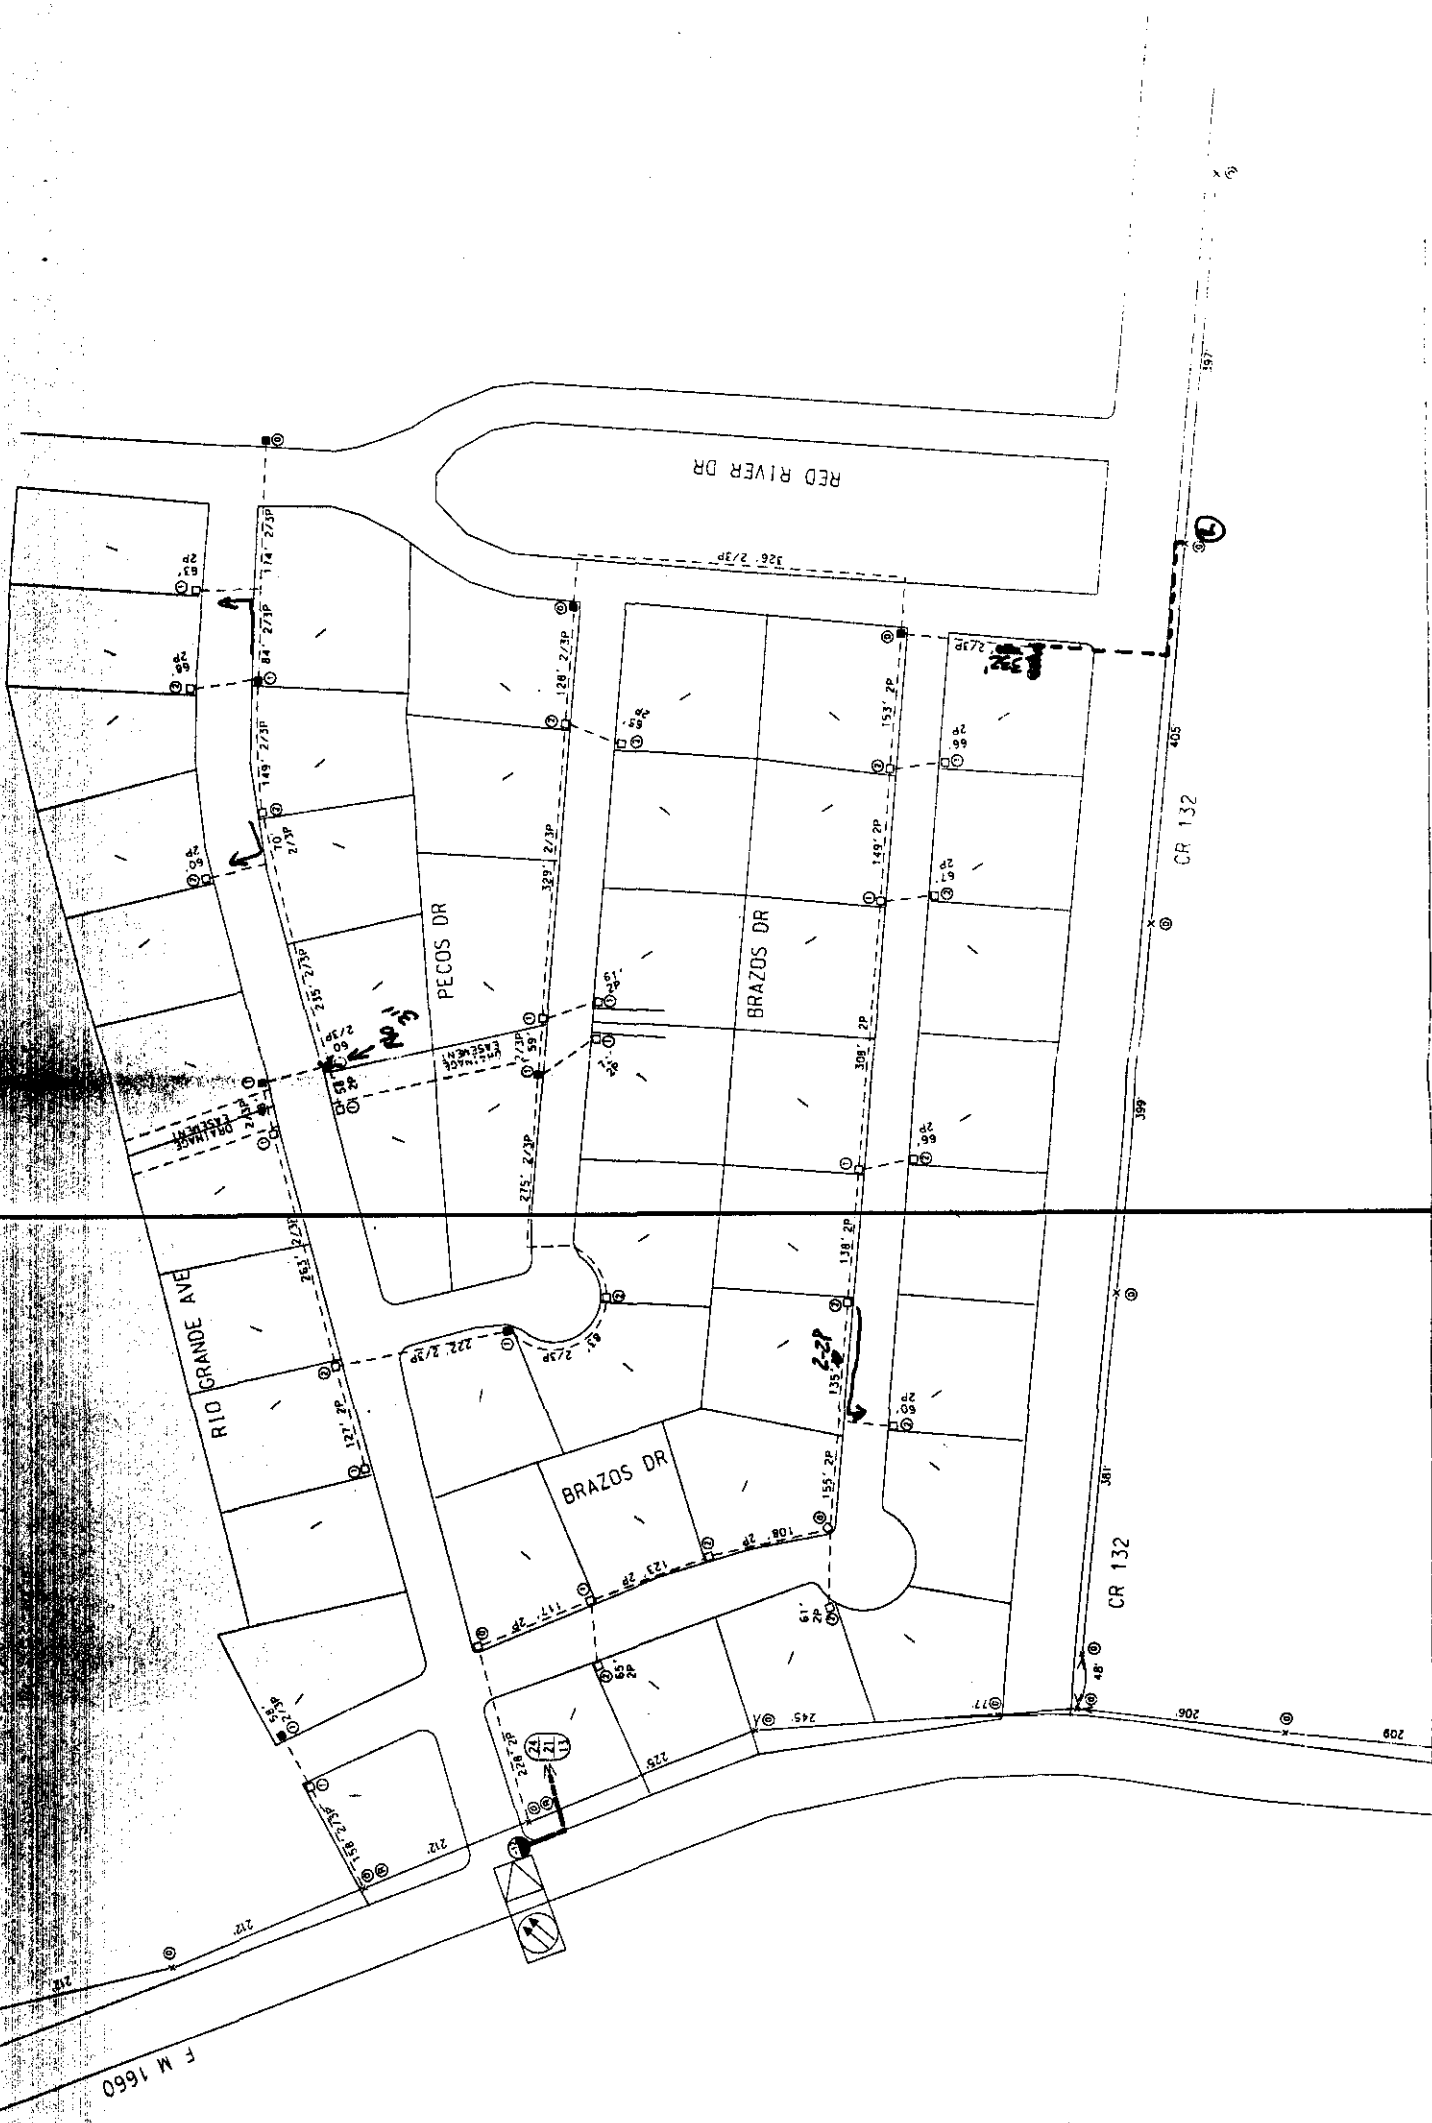

PERPENDICULAR UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

1. Hot mix asphalt 1 1/2" min. thickness. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8 inches, whichever is greater (specifications; TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Where roadside ditches (bar ditches) are crossed by the utility pipe, minimum depth to the top of the pipe from centerline road elevation will be 36".
6. All pavement repair shall conform to Item 351 Repairing Existing Flexible Pavement Structure as found in the 1993 Texas Department of Transportation Standard Specifications for Construction of Highways, Streets and Bridges.

PARALLEL UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

1. Hot mix asphalt to match existing HMAC thickness or 2" minimum, whichever is greater. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8", whichever is greater (Specifications: TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Damage beyond the centerline requires repair over entire roadway width.
6. All pavement repair shall conform to Item 751, Resurface Existing Paved Roadway, Division 7, Standard Specifications for Construction of Highways, 2004 Edition, Texas Department of Transportation.

NOTICE OF PROPOSED INSTALLATION 5428-3P00 2DE171
UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 8-29-00

Formal notice is hereby given that VERIZON Southwest

Company proposes to place a BURIED COMMUNICATION

line within the right-of-way of COUNTY ROAD 105
as follows: (give location, length, general design, etc.)

SEE SKETCH

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by ONE copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 1ST day of Nov 2000.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.
