

AGENDA ITEM 24

Comments from commissioners.

Commissioner Heiligenstein mentioned that there is a CUC Round Table meeting on Friday, October 27, 2000, at the Doubletree Hotel, and that the Wildflower Center has scheduled a presentation about subdivision regulations and growth management on Friday, October 27, 2000 from 8:30 a.m. until 2:30 p.m.

Commissioner Hays inquired about the nuisance officer assigned to the Road and Bridge Department. Judge Doerfler said that no one had been hired for the position yet. After some discussion about the role of the officer, the commissioners agreed that the position should stay in the Road and Bridge Department and that Greg Bergeron should have the position filled.

Commissioner Heiligenstein asked County Engineer Joe England about the status of Northridge Estates concerning drainage. Mr. England said that some of the culverts were blocked with trash and construction debris and that there were some natural low areas that collected runoff. Commissioner Heiligenstein stated that the drainage problem was intended to be resolved when the grant project was finished, since the roads and ditches in the area were going to be affected by the grant project.

Commissioner Hays asked that Commissioner Limmer narrow the list of prospective bids for the jail expansion down to three so that the court could look at narrowing down the three bids to one, with the input of some other county officials.

COMMISSIONERS' COURT ADJOURNED AT 10:35 A.M. ON TUESDAY, OCTOBER 24, 2000.
