

Comments from commissioners.

Commissioner Hays mentioned the renovation of the old Farmers State Bank building and asked for it to be put on the agenda for the next meeting.

Judge Doerfler talked about the leaks in the building and that something needed to be done quickly.

Commissioner Limmer inquired about the nuisance officer assigned to the Road and Bridge Department and mentioned that it had been previously agreed that a commissioned officer was needed for that position.

It was agreed that the nuisance officer position should be put on the agenda for the next meeting and discussed at that time.
