MEMORANDUM

Williamson County Sheriff's Department *Westside Division*

TO: Captain Randy Traylor
FROM: Sergeant Fred Pitcher *FP*
DATE: 12-22-00
SUBJECT: Traffic Motorcycle Units

I received the last quote needed in order to submit a total estimate for the purchase of two new Harley-Davidson motorcycles.

The cost of a new motor unit is \$11,280.20. Harley-Davidson will allow a trade-in allowance of \$10,500.00 per unit thus having a difference of \$780.20 per unit. As written, the estimate also includes an optional 20,000 mile service warranty at a cost of \$995.00 per unit. With title and license fees this brings the total estimated cost to \$1889.00 per unit.

This does not include cost to transfer the emergency lighting system from our current units to the new units. A separate estimate was obtained from Harley-Davidson for the cost to do this. The quote is to remove and install the radar and strobe lights. The estimated cost is \$975.00 per unit. This cost can be reduced if it takes less time to do the transfer.

We have certified radar installers and thus will be using them for the radar install thus decreasing the time and labor cost. The cost also includes materials and labor for Harley-Davidson to build a bracket that is required to mount the radar. I have already talked to employees here and it was determined that we can build an identical bracket and install it when the radar is installed. The estimated cost from Harley-Davidson can be cut probably in half if not more if all they are going to do is install the strobe and radio system.

Keeping the entire estimate for all services the total cost for both units would be \$5628.00. If we take out the 20,000 service warranty and reduce the labor cost to half then the total cost for both units would be \$2713.00.

These new units have had a redesign and do not have the maintenance problems with the engines that our current units have and should not require the extended service warranty.

Attached are the estimates from Harley-Davidson. The trade-in allowance is subject to the inspection of our units at the time they are delivered to Harley-Davidson.
