**RE: Variance to Minimum Radius for
Intersection of Laura Lane and Christine Lane
Ancient Oaks Section One Subdivision**

Dear Mr. Kronkosky,

The above referenced intersection was designed for a knuckle paving section. The outer radius to form the knuckle would require the removal of a large oak tree. We would ask for a variance to the minimum radius at this intersection to save the tree.

We would propose to add signage at the intersection noting speed limit of 15 MPH with a 90° curve symbol above. Please place this on the Commissioners Court agenda for action.

Should you have any questions or need additional information, please feel free to call me at 512-837-2446, extension 208.

Sincerely,

Timothy E. Haynie, P.E., R.P.L.S.
