Gentlemen:

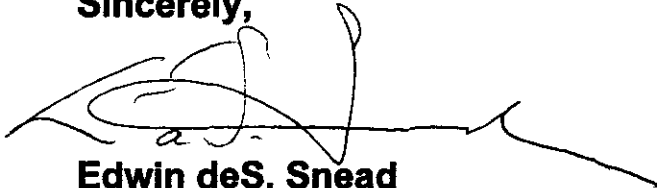

Several months ago I offered to give a Six Chuter powered parachute to the county. Since then a number of obstacles have developed.

In order to achieve closure I am willing to reclaim ownership of the unit.

It is my desire that it be turned over to Albert Sidaras in Salado. I have flown thousands of miles with Al and know him to be a very competent instructor who could train any of your personnel to operate similar equipment.

Your prompt attention will be appreciated.

Sincerely,

Edwin deS. Sneed
