**Dear Mr. Commissioner Boatright,**

The City Council of the City of Liberty Hill (the "Council") seeks the construction of a sanitary sewer system for the health, safety, and welfare of residents of Liberty Hill. A wastewater study prepared by the LCRA and the BRA is the first step in this process. Such a study is costly; therefore, the Council is hereby requesting Williamson County consider contributing ~~\$5,000~~ <sup>3500<sup>00</sup></sup> to the City of Liberty Hill for the purpose of helping fund the wastewater study.
