

AGENDA ITEM 27

Discuss and take appropriate action on Riverbend Oaks Street reconstruction.

Tim Haynie of Haynie Consulting discussed the reconstruction of streets in Riverbend Oaks. He stated that they were having problems obtaining drainage easements from some of the property owners that are necessary for the project. AGENDA ITEM 29**Discuss and take appropriate action on road bond program.**

Road Bond Manager Mike Weaver discussed construction inspection on County road projects, public information on road projects, and passed out a summary of current road projects. Commissioner Boatright suggested that the county hire its own part-time road inspectors from the pool of retired TX Dot employees and engineers with a potential savings of \$5 million.

Regarding: Road Bond Program Construction Inspection
Date: March 11, 2002

As we have discussed, there appears to be an opportunity to utilize County Road and Bridge Department inspectors on a number of the Road Bond Projects. Because of the reduction in subdivision activity, County inspectors are currently available to provide construction phase services.

We have been meeting with County Staff (Greg Bergeron and Joe England) to discuss how to implement this effort, as well as provide a back-up for County staff when development activity picks up. As part of these discussions, we have provided Greg and his staff with the following documents:

- Construction observer scope of work
- Pay order forms
- Change order forms
- Testing guidelines

It is important that no matter who provides the Construction Observer/Inspection services, we utilize the same procedures and processes for inspection, payment, and change orders. In reviewing the road bond program with staff, we have identified the following projects for which County staff could provide inspection services:

- Chandler Road
- CR 137
- CR 175
- CR 200
- CR 214
- CR 276
- CR 300/CR 301
- CR 368/CR 369
- CR 412
- Wyoming Springs North
- Hutto Bypass
- CR 119
- CR 258
- Wooden Bridge Replacement Program
