

AGENDA ITEM 4

Consider noting in minutes any off right-of-way work on any County road done by Road & Bridge Unified System.

Moved: **Judge Doerfler**

Seconded: **Commissioner Limmer**

Motion: To note in the minutes the following utility requests:

Chisholm Trail SUD for ROW and a road cut on CR 230;

Chisholm Trail SUD for ROW and a road cut on CR 228;

Jarrell Schwertner Water Supply for a road bore on CR 315;

Grande Communications, Inc., for a road bore and ROW on Great Oaks Drive;

Grande Communications, Inc., for an aerial in the ROW on Great Oaks Drive;

Grande Communications, Inc., for a road bore and ROW on Cornerwood Drive;

Grande Communications, Inc., for an aerial in the ROW on Cornerwood Drive and Racine Trail;

Southwest Milam WSC for a road bore on CR 442; and

Central Telephone Company of Texas for ROW on CR 136.

Vote: 5 - 0

NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY
ROAD BORE PERMIT

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: January 14, 2002

Formal notice is hereby given that CHISHOLM TRAIL SPECIAL UTILITY DISTRICT

Company proposes to place an 6" C-900 WATER LINE and ENCASEMENT

Line within the right-of-way of COUNTY ROAD 230
as follows: (give location, length, general design, etc.)

The proposed utility line (6" C-900 Water Line including all appurtenances) location crosses County Road 230 approximately 4,100 feet north of the County Road 229 intersection. The proposed alignment is as follows: Perpendicular to and offset approximately 9 feet west of the west fence line of County Road 230 thence approximately 68 feet east to the existing fence line on the east side of County Road 230 and continuing eastward in private easements.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 21 st day of January 20 02.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

APPROVED BY WILLIAMSON COUNTY COMMISSIONERS' COURT

NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY
ROAD BORE PERMIT

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: January 14, 2002

Formal notice is hereby given that CHISHOLM TRAIL SPECIAL UTILITY DISTRICT

Company proposes to place an 6" C-900 WATER LINE and ENCASEMENT

Line within the right-of-way of COUNTY ROAD 228
as follows: (give location, length, general design, etc.)

The proposed utility line (6" C-900 Water Line including all appurtenances) location crosses County Road 228 approximately 4,400 feet east of the S.H. 195 intersection. The proposed alignment is as follows: Perpendicular to and beginning the east fence line of County Road 228 thence approximately 100 feet west to an existing 6" water line on the west side of County Road 228.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 21 st day of January 20 02.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

NOTICE OF PROPOSED INSTALLATION
UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
3151 S. E. Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 1-22-02

Formal notice is hereby given that Jarrell Schwertner Water Supply
Company proposes to place a Water Line (Road Bore)

Line within the right-of-way of County Rd 315
as follows: (give location, length, general design, etc.)

1 mile west of 1105 on county Rd 315. This will be a bore 25' long with a 3" casing and 2" line. The line will be 4' below the pavement. Ditches will be restored to original grade and reseeded with grass seed to meet TXDOT specifications. The area will be marked with blue flags.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the day of 20 .

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

Where possible bore pits will be dug on private property. The bore will consist of a 3" casing with a 2" pipe. All ditches will be put back to original grade and a grass seed of TXDOT specification will be planted.

PERPENDICULAR UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

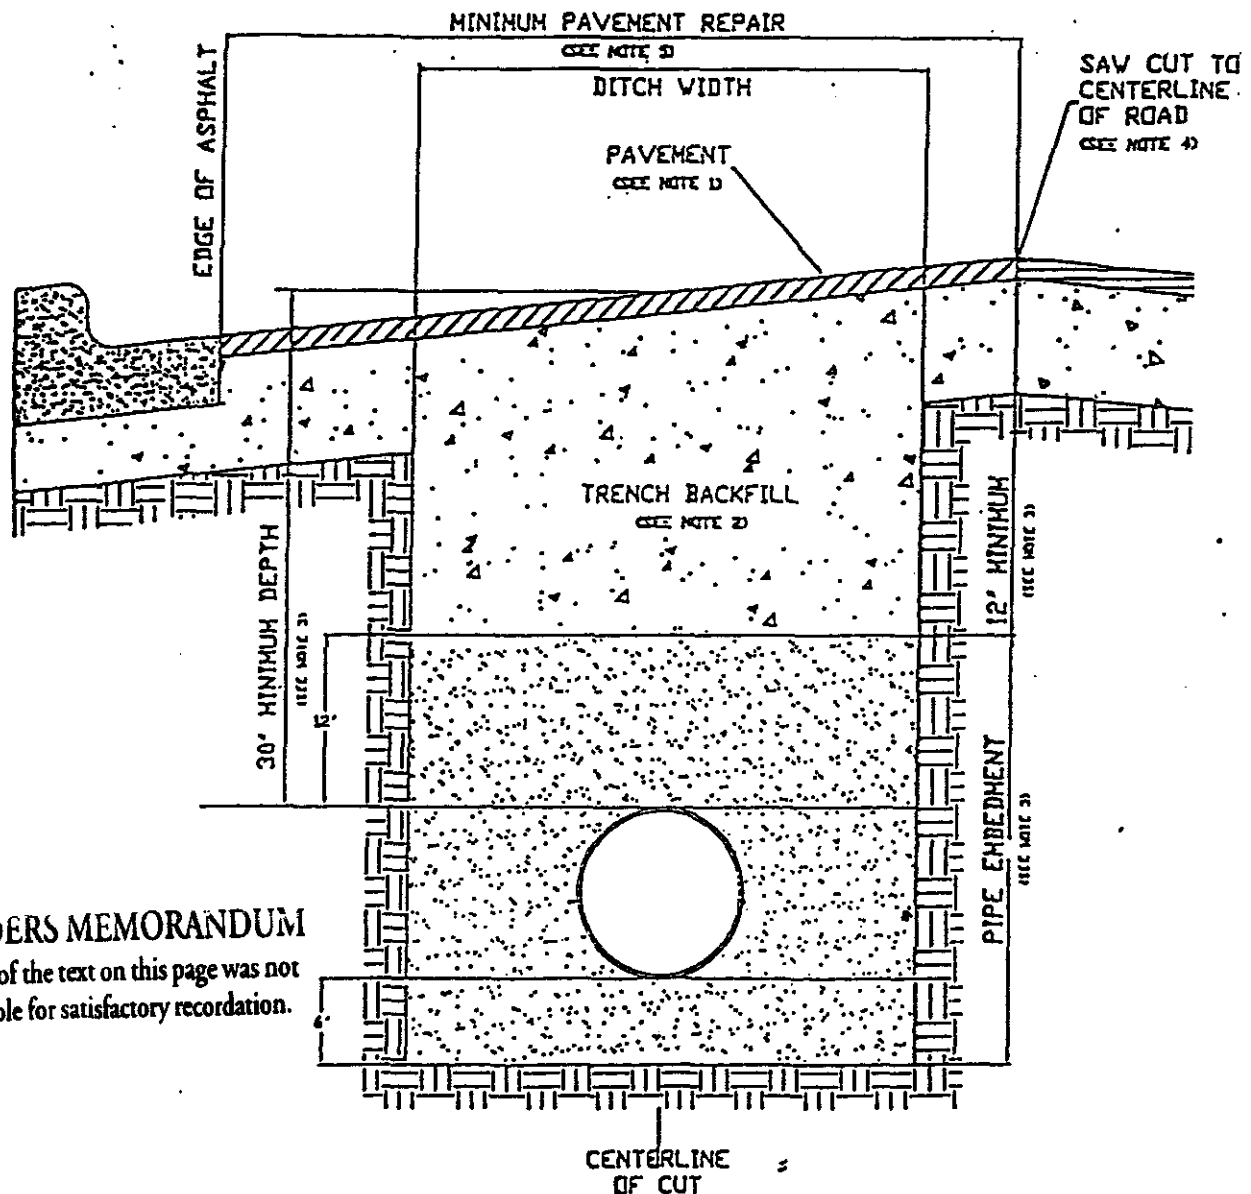

RECORDERS MEMORANDUM

All or parts of the text on this page was not clearly legible for satisfactory recordation.

1. Hot mix asphalt 1 1/2" min. thickness. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8 inches, whichever is greater (specifications; TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Where roadside ditches (bar ditches) are crossed by the utility pipe, minimum depth to the top of the pipe from centerline road elevation will be 36".

PARALLEL UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

RECORDERS MEMORANDUM

Parts of the text on this page was not legible for satisfactory recordation.

1. Hot mix asphalt to match existing HMA thickness or 2" minimum, whichever is greater. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8", whichever is greater (Specifications: TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Damage beyond the centerline requires repair over entire roadway width.

CONTRACTOR'S LIABILITY AGREEMENT

I, Lee Bares, Contractor for Grande Comm.
 in Williamson County, Texas do hereby agree to the following schedules and conditions for doing work within
 the right-of-way of Great Oak Drive which is a public roadway
 maintained by Williamson County.

1. I will contact the Williamson County Unified Road System at least 48 hours prior to start of construction.
2. All work in the right-of-way will be done between the hours of 8:30 a.m. and 4:30 p.m. on Monday through Friday only.
3. Cuts will be opened for one-half the roadway only, with flagmen on both sides of the work area, allowing one-way traffic through. This type of operation will be held to a minimum and all advance warning signs and barricades shall be as specified in the Texas Manual on Uniform Traffic Control Devices. These cuts will also be filled and entire roadway opened at night and on weekends.
4. Roadside work in ditches alongside the trenched surface may be left opened at night, only if they can be barricaded solidly between open ditch and traveled roadway leaving a minimum 6' of road shoulder between the pavement edge and the barricades. The barricades must be reflective and lighted with warning lights and conform to the requirements of the T.M.U.T.C.D. for nighttime use.
5. Any construction area to be maintained from dusk to dawn shall have Type B High Intensity Steady Burn Warning Lights to delineate the traveled way through and around obstructions in a construction or maintenance area. All warning lights shall be installed to a minimum mounting height of 36" to the bottom of the lens.
6. Construction work and road repair on County right-of-way will be done to Williamson County Standards and to the approval of the Williamson County Unified Road System.
7. I will notify the Williamson County Unified Road System and obtain approval prior to any changes from this agreement if required due to soil conditions or other problems.

NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
3151 S. E. Inner Loop, Suite B
Georgetown, Texas 78626

DATE: January 22, 2002

Formal notice is hereby given that Grande Communications, Inc
Company proposes to place an Underground fiber optic network
Line within the right-of-way of Cornerwood Drive
as follows: (give location, length, general design, etc.) Beginning at intersection of
Cornerwood Drive @ Monahan Ave open trench for approximately
149' to a proposed hand hole. Directional bore from hand hole
approximately 114' crossing Monahan Avenue. Open trench
for approximately 197' to existing pole.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the _____ day of _____ 20__.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

CONTRACTOR'S LIABILITY AGREEMENT

I, Lee Bares, Contractor for Grande Coun.
in Williamson County, Texas do hereby agree to the following schedules and conditions for doing work within
the right-of-way of Cornerwood Drive which is a public roadway
maintained by Williamson County.

1. I will contact the Williamson County Unified Road System at least 48 hours prior to start of construction.
2. All work in the right-of-way will be done between the hours of 8:30 a.m. and 4:30 p.m. on Monday through Friday only.
3. Cuts will be opened for one-half the roadway only, with flagmen on both sides of the work area, allowing one-way traffic through. This type of operation will be held to a minimum and all advance warning signs and barricades shall be as specified in the Texas Manual on Uniform Traffic Control Devices. These cuts will also be filled and entire roadway opened at night and on weekends.
4. Roadside work in ditches alongside the trenched surface may be left opened at night, only if they can be barricaded solidly between open ditch and traveled roadway leaving a minimum 6' of road shoulder between the pavement edge and the barricades. The barricades must be reflective and lighted with warning lights and conform to the requirements of the T.M.U.T.C.D. for nighttime use.
5. Any construction area to be maintained from dusk to dawn shall have Type B High Intensity Steady Burn Warning Lights to delineate the traveled way through and around obstructions in a construction or maintenance area. All warning lights shall be installed to a minimum mounting height of 36" to the bottom of the lens.
6. Construction work and road repair on County right-of-way will be done to Williamson County Standards and to the approval of the Williamson County Unified Road System.
7. I will notify the Williamson County Unified Road System and obtain approval prior to any changes from this agreement if required due to soil conditions or other problems.

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: January 16, 2002

Formal notice is hereby given that Central Telephone Company of Texas

Company proposes to place a buried telephone cable

line within the right-of-way of CR 136
as follows: (give location, length, general design, etc.)

Starting at the intersection of 1660 N. and CR 136, an aerial fiber and copper line on existing power poles in the north R.O.W., continuing east for approx. 2,700 feet to Carol Dr. At Carol Dr. a buried fiber and copper line boring Carol Dr. and continuing approx. 270 feet to Clarks Way, boring under Clarks Way, continuing approx. 550 feet to Kates Way, boring Kates Way and continuing approx. 400 feet to the end of the Clarks Crossing Subdivision, boring under CR 136 to an existing power pole in the south R.O.W. All fiber will be at a depth of 42 inches and 3 to 5 feet from the rear of the R.O.W.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 4th day of February 20 02

APPROVAL

This application is hereby approved subject to the following understandings and restrictions. It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

CONTRACTOR'S LIABILITY AGREEMENT

I, Larry Parker, Contractor for Central Telephone Co. of Texas (Sprin
in Williamson County, Texas do hereby agree to the following schedules and conditions for doing work
within the right-of-way of CR 136 which is a public
roadway maintained by Williamson County.

1. I will contact the Williamson County Unified Road System at least 48 hours prior to start of construction.
2. All work in the right-of-way will be done between the hours of 8:30 a.m. and 4:30 p.m. on Monday through Friday only.
3. Cuts will be opened for one-half the roadway only, with flagmen on both sides of the work area, allowing one-way traffic through. This type of operation will be held to a minimum and all advance warning signs and barricades shall be as specified in the Texas Manual on Uniform Traffic Control Devices. These cuts will also be filled and entire roadway opened at night and on weekends.
4. Roadside work in ditches alongside the trenched surface may be left opened at night, only if they can be barricaded solidly between open ditch and traveled roadway leaving a minimum 6' of road shoulder between the pavement edge and the barricades. The barricades must be reflectorized and lighted with warning lights and conform to the requirements of the T.M.U.T.C.D. for nighttime use.
5. Any construction area to be maintained from dusk to dawn shall have Type B High Intensity Steady Burn Warning Lights to delineate the traveled way through and around obstructions in a construction or maintenance area. All warning lights shall be installed to a minimum mounting height of 36" to the bottom of the lense.
6. Construction work and road repair on County right-of-way will be done to Williamson County Standards and to the approval of the Williamson County Unified Road System.
7. I will notify the Williamson County Unified Road System and obtain approval prior to any changes from this agreement if required due to soil conditions or other problems.
