NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System

DATE: 2/18/043151 S. E. Inner Loop, Suite B
Georgetown, Texas 78626Formal notice is hereby given that H. DECK CONST.Company proposes to place a 2" X 12" WATER TAP WITH 2" LINE UNDER STREETLine within the right-of-way of LOGAN RANCH RD.as follows: (give location, length, general design, etc.) 124 LOGAN RANCH RD.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 19 day of FEB. 2004

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.

It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

STREET CUT. WATER TAP
BC,

I, Ray Young, Contractor for H. Deck Const.
in Williamson County, Texas do hereby agree to the following schedules and conditions for doing work within
the right-of-way of Logan Ranch Rd. which is a public roadway
maintained by Williamson County.

1. I will contact the Williamson County Unified Road System at least 48 hours prior to start of construction.
2. All work in the right-of-way will be done between the hours of 8:30 a.m. and 4:30 p.m. on Monday through Friday only.
3. Cuts will be opened for one-half the roadway only, with flagmen on both sides of the work area, allowing one-way traffic through. This type of operation will be held to a minimum and all advance warning signs and barricades shall be as specified in the Texas Manual on Uniform Traffic Control Devices. These cuts will also be filled and entire roadway opened at night and on weekends.
4. Roadside work in ditches alongside the trenched surface may be left opened at night, only if they can be barricaded solidly between open ditch and traveled roadway leaving a minimum 6' of road shoulder between the pavement edge and the barricades. The barricades must be reflective and lighted with warning lights and conform to the requirements of the T.M.U.T.C.D. for nighttime use.
5. Any construction area to be maintained from dusk to dawn shall have Type B High Intensity Steady Burn Warning Lights to delineate the traveled way through and around obstructions in a construction or maintenance area. All warning lights shall be installed to a minimum mounting height of 36" to the bottom of the lens.
6. Construction work and road repair on County right-of-way will be done to Williamson County Standards and to the approval of the Williamson County Unified Road System.
7. I will notify the Williamson County Unified Road System and obtain approval prior to any changes from this agreement if required due to soil conditions or other problems.

PERPENDICULAR UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

1. Hot mix asphalt 1 1/2" min. thickness. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8 inches, whichever is greater (specifications; TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Where roadside ditches (bar ditches) are crossed by the utility pipe, minimum depth to the top of the pipe from centerline road elevation will be 36".

PARALLEL UTILITY CUT DESIGN IN WILLIAMSON COUNTY R.O.W.

1. Hot mix asphalt to match existing HMAC thickness or 2" minimum, whichever is greater. Roll in place to match existing surface, + or - 1/8" tolerance.
2. Trench backfill shall be flexible base, compacted to 95% optimum in 8" layers unless otherwise approved and specified. Flexible base to match existing base thickness or 8", whichever is greater (Specifications: TxDOT Item 247, Type A, Grade 2).
3. Pipe embedment (pipe envelope) size and materials shall be as specified elsewhere by the utility company and/or its engineers. Pipe depth shall be as specified elsewhere provided that minimum depths are met.
4. Saw cut shall be made prior to ditch cut. If pavement is damaged during cut, a new saw cut shall be made beyond the damaged area and new pavement placed.
5. Damage beyond the centerline requires repair over entire roadway width.

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 2/9/04

Formal notice is hereby given that Central Telephone Company of Texas

Company proposes to place a buried telephone cable

line within the right-of-way of CR 130
as follows: (give location, length, general design, etc.)

Approximately 2,003 feet north of the intersection of CR 130 & CR 100 near the driveway to 3901 CR 130, Sprint proposes to place a 50 foot road bore under CR 130 and placing a pedestal in the east R.O.W. of CR 130.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 18th day of February 20 04.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.
It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.

NOTICE OF PROPOSED INSTALLATION

UTILITY LINE ON WILLIAMSON COUNTY RIGHT-OF-WAY

TO: Williamson County Unified Road System
1900 Georgetown Inner Loop, Suite B
Georgetown, Texas 78626

DATE: 2/12/04

Formal notice is hereby given that Central Telephone Company of Texas

Company proposes to place a buried telephone cable

line within the right-of-way of CR 119

as follows: (give location, length, general design, etc.)

Beginning approximately 600 ft. north of the intersection of Hwy. 79 and CR 119 in the east R.O.W. of CR 119, Sprint proposes to dig up the existing fiber and copper cable and placing a handhole and pedestal. Then continuing 300 ft. and placing a road bore under CR 119 to the west R.O.W. of CR 119. Then continuing 500 ft. and boring under the gas pipeline, continuing 920 ft., then placing a handole and pedestal and digging across east to reuse an existing pipe under CR 119 to place cable in an existing pedestal in the east R.O.W. Then continuing 1105 ft. in the west R.O.W. to an existing handhole and pedestal. Fiber cable will be placed at a depth of 42 in. and 5 ft. from the rear of the new R.O.W.

The line will be constructed and maintained on the road right-of-way as directed by the Williamson County Unified Road System in accordance with governing laws.

Our firm further understands that the County considers proper traffic control measures as those complying with applicable portions of the Texas Manual of Traffic Control Devices required for adoption by the "Transportation Code" (V.C.T.A. CH.251)

The location and description of the proposed line and appurtenances is more fully shown by 2 copies of drawings attached to this notice.

Construction of this line is proposed to begin on or after the 23rd day of February 20 04.

APPROVAL

This application is hereby approved subject to the following understandings and restrictions.
It is expressly understood that the said County Commissioners' Court does not imply hereby to grant any right, claim, title or easement in or upon this County Road; and it is further understood that in the future, should Williamson County, for any reason, need to work, improve, relocate, widen, increase, add to, decrease, or in any manner change the structure of this road or right-of-way, this line, if affected, will be moved at the direction of the Williamson County Engineer or County Commissioner. This installation work shall not damage any part of the roadway and adequate provisions shall be made to cause a minimum of inconvenience to traffic and adjacent property owners.
